## **DETAILED ACTION**

### ***Drawings***

The drawings were received on 2/14/05. These drawings are acceptable.

### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: cancel non-traversed, non-elected claims 1-15.

Applicant's election of Group II, claims 16-19, is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

### ***Reasons for Allowance***

Claims 16-19 have been allowed over the prior art.

The following is an examiner's statement of reasons for allowance: Prior art could not be located that taught a vacuum microdevice package comprising a first cover having a first surface including a recessed portion with one or more bond pads; a

second dielectric cover, a second dielectric cover aligned with the first dielectric cover; a center layer, sealed between the first surface of the first dielectric cover, including a microelectronic device and one or more vias aligned with the bond pads on the recessed portion of the first dielectric cover; and one or more getters deposited through the vias in the center layer and coupled to the one or more bond pads on the first surface of the first dielectric cover to maintain a constant vacuum level within the sealed microdevice package.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
